

# All Path Users: Detour change and delays

## The Canoe Canal Path under Interstate 5 will be closed April 19 through May 3.

During the closure, path users will use the North Bank Path to travel east-west between Eugene and Springfield. Please be prepared for occasional delays.

Bicyclists are subject to the same rules as motorists, including doubling of fines in construction zones for not obeying flaggers or riding on a road or path that is closed.

For your safety, please observe all signs and stay within marked detours. Please follow directions from flaggers who will direct traffic through construction activity. Throughout the construction project, an east-west route will always be open.
